**2. Please give a concise statement of your protest. \* (This section must be completed. Attach additional information if necessary.)**

We recently built a home. We were told the sewer line was within 25 ft of the house. When we went to install the sewer line, we had to tie in over 100 ft away down a steep slope to the main sewer line. This cost us an additional \$4000. I'm not sure what the \$1200 Sewer Tap fee paid to TCWS was for since they did nothing. TCWS refused to run the water line near our home. They originally said the meter would be near the house, but when it was determined the line was not big enough they chose to take the cheaper route of placing it at the road. This cost us an additional \$900. We paid a \$600 Tap Fee to TCWS for the meter installation with the understanding it would be within a few feet of our home. The manholes on and near our property continually have an odor. This makes being near them when we are at our dock an unpleasant experience.

**3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? \***
